Puresh Daily Foods Pvt. Ltd. Ranchi, Jharkhand

About Us

Started in 2019, We are a Dairy, Vegetables & Fruits Canning/Sterilization and Frozen/IQF products manufacturing company with our own plant at Ranchi, Jharkhand. In Dairy, our markets include districts of Jharkhand and neighbouring states. In Canned and Frozen Foods our markets are PAN India & in exports too. Customers are categorized into Direct to Home (D2C) and Service through our mobile App. Our strengths are in B2B and HORECA and in bulk packaging. We use fresh and better quality ingredients and smart technologies in all our processes and are very flexible in terms of customer requirements. We are a new age food processing company offering better taste, cleaner and sustainable packaging. We are expanding our distributor network across states and in export markets too.

Sourcing: “We source the best quality cow milk from Jharkhand, Bengal and Bihar as per season. The milk quality is found to be one of the best in the country because of natural grass fertilizer in the soil and indigenous breed of cows.”

Quality: “We maintain resibility and do multiple testing before we use them for making products. In dairy, we have created our own position of a premium brand which is natural, tastier than other traditional dairy brand.”

Customer Focused: “We regularly launch new products and flavors to attract all age group of customers. Production is just in time as per seasonal demand and highly customized as per market demand. We have retail as well as bulk packaging which is eco friendly and of different pack sizes. We are planning to enter into new markets of eastern and northern States through our distribution channel and will create a disruption using technology.”

PRODUCT PACK SIZE/QUANTITY:

Net wt. = 800-850gm

Drained wt. = 400-425gm

Source: We source vegetables and fruits produced mostly in Jharkhand. We source from a close distance to maintain freshness of raw materials. The vegetables here are 100% natural, almost organic as they have negligible fertilizer & pesticide residue. These make the final product tastier, better in color/texture and having higher shelf life.

Own Manufacturing: We use latest machinery in processing like cutting, blanching, sterilisation, retort and TIN CAN filling. Our food experts regularly test the raw materials, finished products and develop new products.

HORECA Special: We understand the chef needs and give options on size , flavor and even work together with them to develop new products. Thus the recipes made by the chefs are tastier and we have many testimonials for it.

Sourcing: We source vegetables and fruits from Jharkhand and eastern states. They are special because they are available round the year , 100% natural and almost organic. They are sweeter in taste due to higher potassium content in the soil and natural ways of farming practices. Most of the crops are not genetically modified thus having natural longer shelf life and spoilage resistance.

IQF & Blast Manufacturing: We have state of the art plant of 2 tons per hour capacity and storage capacity up to 1000 tons. We have many certificates of quality assurance and more certifications can be applied as per requirements. We have multiple customized options of manufacturing process and packaging size as per the order.

Ready for all India and Export Market: We can take orders in bulk quantities & small quantities also. We can stock for trading companies, can do white labelling, contract manufacturing as per requirements. We can collaborate with other frozen manufacturing companies for special and symbiotic orders. The quality produced is ready for exports and logistics option are also available.

Why do Business with us?

- **Customer service on top** - We provide packing & delivery as per requirements and give honest commitments. We have a dedicated customer care team (all 365 days) to take orders, resolve issues, etc.
- **Flexible Business Model** - We are open for white labelling, contract manufacturing and also have a franchise model. Also, we can do a partnership for serving eastern India market, provide our cold storage on rental, and offer distribution / accepting distribution (for the product we do not manufacture).
- **Startup using tech-based distribution**-High growth track record bringing disruption in dairy and food space .
- **Export oriented company** - We have IE code (Import - Export) , APEDA registered having logistics solutions to western countries, East Africa and South Asian market. We can customize product as per specific country needs as well.
